

School Vaccination Programme 2017/2018

Dear Principal,

This letter is to inform you of the Health Service Executive (HSE) school vaccination programme in 2017/2018. The World Health Organization recommends that school age vaccines should be given in schools to provide equity of access and there is scientific evidence that vaccine uptakes are much higher in adolescents when they are given in schools.

◆ **Tdap (Tetanus low dose diphtheria, pertussis) vaccine**

The Tdap vaccine will continue for all 1st year students and given with the first HPV vaccine for girls.

◆ **MenC (Meningococcal C) vaccine**

The MenC vaccine booster will continue for all 1st year students. This vaccine will be given in the second or third term at the same time as the Tdap or 2nd dose of HPV vaccine.

◆ **HPV (Human Papillomavirus) vaccine**

The HPV (Human Papillomavirus) vaccination programme will continue for girls in 1st year. Two vaccine doses with a six month interval are required for HPV vaccine to be fully effective. The HSE vaccination teams will provide HPV vaccinations on agreed dates in September/October and March/April.

The HPV vaccine (Gardasil) is safe and effective and the safety profile of the vaccine has not changed since the HSE vaccination programme began in 2010. A separate fact sheet on HPV vaccine has been produced for teachers this year so they can help to provide accurate information about HPV vaccine to students.

Parents of any older students who now wish to be vaccinated should contact their local immunisation office.

Information packs for these vaccination programmes will be distributed to schools in the coming weeks. *We ask that you only distribute HSE information materials and do not forward any other non HSE vaccine information to parents.* This is to ensure that parents receive information that is scientifically accurate and endorsed by national and international expert and regulatory bodies so they can choose to protect their daughters from cervical cancer.

Indemnity for any future liability arising from the role which schools currently undertake in the school vaccinations is a matter which would be addressed by the HSE and/or the Department of Health.

I would like to thank you for your cooperation in the delivery of the successful vaccination programmes in previous years. The HSE vaccination teams will continue to work with you to ensure vaccination sessions this year take place as efficiently as possible. As always, they adhere to the policies of the school when providing this service. Should you or any parents require further information please visit www.immunisation.ie or contact your local immunisation office (phone numbers overleaf)

Yours sincerely

Dr Kevin Kelleher, Assistant National Director of Health and Well-Being - Public Health & Child Health
Medical Registration Number 19719

Please note that for vaccination sessions to take place the HSE teams will require

- Use of a large room on the ground floor such as a hall/indoor sports court. In choosing this area it would be very useful if there was a separate entrance and exit.
- Hand-washing facilities
- Tables and chairs for vaccinating teams (depending on size of school and vaccinating team)
- Chairs or mats for one class of female students at any one time
- A liaison member of staff or a designated student to call students from class at the appropriate time for vaccination and return them to class in an orderly way after vaccination
